

Nuno Marques

## Full-stack designer & web developer

I have accomplished more than a decade of professional work designing and developing websites, with national and international clients. I am driven by clean code and passionate about pixels, colors and interfaces. Lately, I have been exploring digital product design and 360 & VR content for the web browser. You can find me in the sunny Lisbon.

### Experience

- 2017-19** ● **NOVA FCSH / Aromni** — Digital Product Designer  
Lisbon  
Conceived the product and designed all the wireframes, prototypes, design assets, WebVR experience, website and recorded/edited the promo video for Smart Stories. Developed also the BOLHA 360 WebVR experience.
- 2015** ● **Two Impulse** — Front-end & WordPress Developer  
Remote  
Worked remotely to design and developed a fully-customizable wordpress template for an online shop. Github and Bitbucket were used by the team for versions control.
- 2014-19** ● **INATEL** — Senior Graphic Designer  
Lisbon  
Created stands for the international BTL conference in Lisbon. Designed several visual identities and printing materials for cultural, sports, hotels and tourism events. Responsible to create promotional videos to highlight the 80th anniversary and to design, develop and send all the newsletters from 2015 to 2018 (+250k subscribers).
- 2010-14** ● **Draft Flow** — Web Designer & Developer  
Lisbon  
Responsible for all the web projects for the agency, some integrated with a CMS and had special contact forms with auto-responders and newsletters. Created several interactive micro-sites and animated flash banners to promote the Pescanova and Bledina's products. Helped with the final print-production files of packaging design for some of Pescanova, Bledina and Primor's products.
- 2008-09** ● **ESA Hubble Space Telescope** — Graphic Design Intern  
Munich  
Designed books and brochures, such as "CAP 2017", "Hidden Universe", "Eyes on the Skies" and "IYA2019 Brochure". First contact working on a huge organization.
- 2007** ● **Navegar Foundation** — Web and Design Intern  
Espinho  
Responsible for the identity and design/development of various websites, including the Portuguese International Year of Astronomy 2009 site, scientific conferences, planetarium shows and the redesign of the company website. Was also responsible for the identity and user interface design of the software "DomeView".

### Education

- 2017-19** ● **NOVA FCSH University**  
Lisbon  
Master degree in New Media & Web Practices
- 2005-07** ● **Aveiro University**  
Aveiro  
Bachelor of Multimedia Product's Development
- 2002-05** ● **Serafim Leite School**
